Rolling Mill (No. 22 of Annex 1)

25X1

Annex 2

Legend:

- a Three coke ovens
- b Two finishing machines
- c Two electric cranes on traveling bridges 24-ton carrying capacity each
- d Heavy plate rolling train five to six rolls
- e Sheet rolling train 4 rolls
- f Rolls for round iron exceeding 6 mm in diameter. 70 meters long
- g Six electric pumps (roll cooling water)
- h Six drilling machines
- i Office
- j Magnetic crane
- k Grab crane
- l Two circular saws
- m One crane on traveling bridge, 20 tons
- n Two smokestacks

Wheel Disk Rolling Mill (No. 20 of Annex 1)

25X1

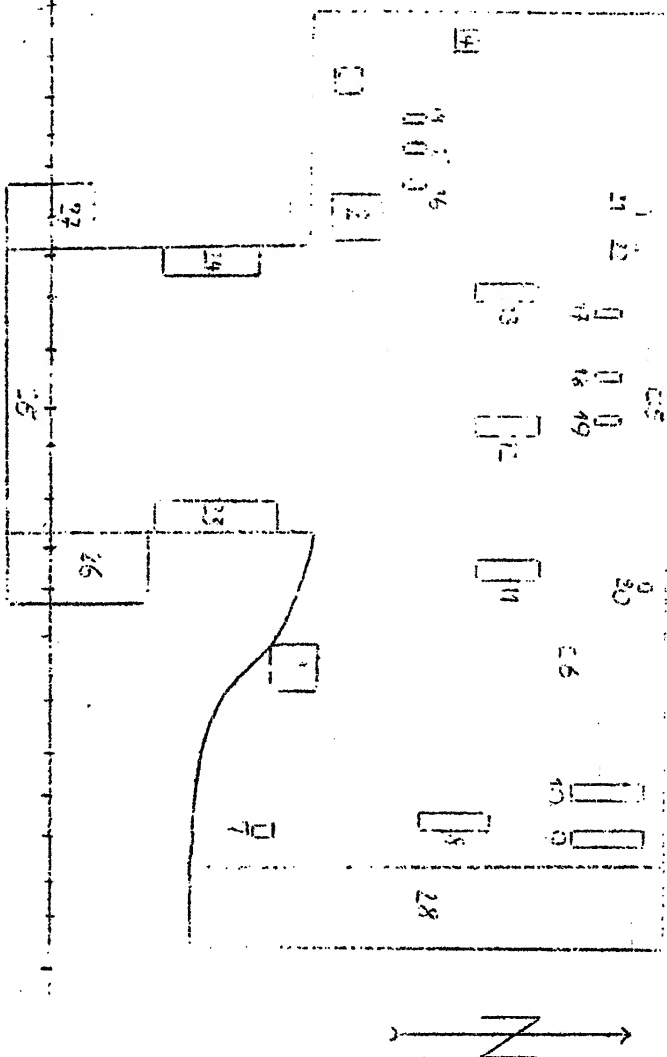

Annex 3

Legend:

- a Pneumatic hammer, 18 tons
- b Two smaller pneumatic hammers
- c Three vertical electric furnaces, 1.5 meters in diameter, 3 meters high
- d Two medium cranes
- e Electric compressor (in annex building 28x5 meters)
- f Office building

CONFIDENTIAL

Legend:

- 1-2 Two gas furnaces for annealing work pieces which then are processed by the hydraulic presses or steam hammers
- 3-4 Two gas furnaces, 3x2 meters
- 5 One fuel oil furnace, 1x1 meters
- 6 One fuel oil furnace, 1x1 meters
- 7 One gas furnace, 2x1 meters, for spring plates
- 8 Hydraulic presses, 24 tons, particularly for manufacturing oil-drilling implements
- 9-10 Two centrifugal presses
- 11-12-13 Three large steam hammers
- 14-15-16 Three electric hammers
- 17-18-19 Three small steam hammers
- 20-21-22 ?
- 23 Special electric furnace, 9x2 meters, with three chambers (especially for weapon production)
- 24-25 Two gas furnaces, 6x2 meters and 15x4 meters
- 26-27 Two steam generator boilers, coal firing for the steam hammers, 6x6x6 meters
- 28 Locksmith's shop, 30x6 meters, three drilling machines etc.

Annex 5

Legend:

- 1 Corridor and well of staircase, 15x2 meters
- 2 Laboratory, test station 11x5 meters
- 3 Storage place of the laboratory
- 4 Grinding shop, 13x6 meters, one German precision grinding machine
- 5 Machine shop, 35x15 meters. 20 lathes, eight small grinding machines etc.
- 6 Cabin, 4x2x5 meters, with modern special machine and centering machine
- 7 Storage room for special steel, 8x2 meters
- 8 Test shop for finished products
- 9 Assembly shop with various special machines
- 10 Machine shop, 53x15 meters, 30 lathes, 10 drilling machines, milling machines
- 11 Lift
- 12 Tool store room, 6x15 meters
- 13 Office of the foreman, 8x6 meters
- 14 Store room for materials
- 15 Three office rooms
- 16 Technical office, 9x3 meters
- 17 Drafting room, 13x8x5 meters
- 18 Corridor
